SUPERINTENDENT'S REPORT

To the School Board and citizens of Danville:

I herewith present my tenth annual report, as Superintendent of the Danville Schools.

Below is a list of the teachers for this School year.:

TEACHING STAFF

Name	Trained At	Experience
Grace Boody	Plymouth '31	5
Elizabeth Booker	Plymouth '30	6
Mrs. Dorothy Sargent	Bridgewater '15	16

You will notice that no changes have taken place from last year's staff. You are indeed fortunate to obtain satisfactory and conscientious teachers and then retain their services over a period of years. Their total of experience mounts and results in an average of nine years per teacher, a fact which is worthy of your appreciation.

PUPIL ACHIEVEMENT

	<i>Reached or Bettered Grade</i>	<i>Below Grade</i>
Grade I	6	0
Grade II	6	0
Grade III	3	0
Grade IV	11	0
Grade V	7	0
Grade VI	13	1
Grade VII	8	0
Grade VIII	6	0

This above represents one of the best accomplishments that

I have ever had the privilege to report. The number of pupils below grade is often used as a test of proper grading and placement. Applying this test to your grades, we readily see an almost ideal situation. I am very much heartened with this condition and I know you will feel content that your pupils have ability equal to their years and teachers able to promote their abilities along the lines most necessary for proper scholastic endeavours.

PERFECT ATTENDANCE

FINANCES

A comparison of school costs of this union should be of interest to you:

PER PUPIL COST 1935-36

	Per pupil cost	State aid per pupil	1935-36 Net to District	1932-33 Net to District
Brentwood	57.91	22.16	35.75	38.33
Danville	73.21	27.98	45.23	39.16
East Kingston	84.53	30.75	53.78	84.73
Epping	48.84	20.41	28.43	34.12
Fremont	56.09	15.35	40.74	51.14
Kingston	66.08	19.95	46.13	48.16
Sandown	74.21	33.55	40.66	44.86
South Hampton	116.77	44.07	72.70	82.56
State Median	77.93			

You will notice from this tabulation in the net figure column, the effect of State aid upon your costs. Your costs per pupil are less than the State Median and in net are not excessive when compared with other districts. The increase in net cost as pictured, is explained by the fact that there was

a smaller average membership last year than three years ago, but with the total expense remaining about the same. Enrollment varies while overhead becomes constant.

If you compare your "local district" cost with the "high school" cost, you will note that the large number of high school students from Danville is reflected there. The actual need of taxation to the district for high school purposes is even greater than for the elementary schools. As yet, no solution of this problem has been offered and possibly none can be for the present. If some system of state or federal aid is worked out whereby a portion of high school tuition is borne by the whole public, it would result in much relief to local property taxation, which now by statute must bear the whole burden. You can readily see that such aid would help your district from its now rather unfavorable position on the list of districts in this state.

MUSIC

An innovation has been started this year in the field of music teaching in the schools. Prior to this year three districts of this Union had supported a music teacher and supervisor. The other five districts relied upon the varying talents of their teachers to carry on the program in this important phase of cultural and leisure-time attainments. So, with a desire to see the development and coordination of these efforts,

the State Department of Education offered to finance the salary of a music teacher in all State-aided districts provided a whole Union would finance the necessary travelling expense. This affair was placed before every board in this Union and accepted this Fall. The organization was completed and became effective November 30, 1936.

In the short time that the plan has been in operation, we find a hearty response to its effectiveness and value. The schools in which the plan is not a new one are pleased for its continuance and those in which no supervisor formerly taught are enthusiastic for the innovation. I am happy to say that I believe this plan for music instruction of this type is the most important development we have accomplished during my tenure in this office. A warning to all concerned was given that the expectation of results need not be great for the remainder of the year, but our fondest hopes have been exceeded by the accomplishments to date.

Financially, this arrangement has proved a help to those districts in which a supervisor has been employed. The salary proportion for which they are responsible now becomes a part of State Aid whereas they formerly bore the whole cost. The five new districts have added but a small charge for travelling expense, the salary being no charge whatsoever.

CONCLUSION

I am again pleased to report the genuine cooperation of a conscientious teaching staff and the sympathetic guidance of an interested School Board. The work of the year has been pleasant and profitable for pupils and school officials.

Very respectfully,

HAROLD C. BOWLEY,

Superintendent of Schools
